Celebrating 15 years of services to our Clients 1994 - 2009

Dear Vermont Clerk,

Tuesday September 1st, Linda Spence, Clerk of Manchester, officiated at the Civil Marriage of "a lovely couple who had waited over thirty years to get married." Twenty minutes before the ceremony, Linda used the IMAS, llc, **Vitals Recording System-*VRS*©** to issue her first Civil Marriage certificate.

IMAS releases **Scan, Print, View-*SPV*©** platform for your **Vitals Recording System-*VRS*©**. Keep records pristine, accurate, safe and instantly accessible with our new ***SPV*©** function for ***VRS*©.** Eliminate the cumbersome process of accessing vital records in notebooks—no more plastic sleeves and copy machines.

This new update of **Vitals Recording System-*VRS*©** will enable you to print to any printer in your office without alignment. This new version produces:

- form DH-PHS-MARLIC-2009
- the registry for the front of your vitals binder books
- the long index to vitals (merged or separated)
- state revenue form
- the ability to print a new vital record onto a blank sheet of paper (PDF form) eliminating the alignment process
- the ability to scan-in the officiated Vital record for safe keeping and Inquiry look-up
- the ability to re-dact anything at the time of printing a copy

For about the cost of two copies per month, with prices starting at $19.95 per month, this new version of ***VRS*©** also allows Internet requests for vital record copies from your community's webpage or IMAS' WebTownHall webpage, enabling you to plan your work load in advance and serve the public efficiently.

I look forward to talking with you.

John
