

Dear *IMAS* customer,

IMAS has added credit card processing to our *Animal Licensing* software. Whether or not your town currently accepts credit card payments, you can now offer this convenience to your constituents seeking to keep their pets' registrations current. Our partner, [PowerPay](#), uses the most advanced, tested, approved, PCI-DSS Level 1 compliant credit card processing. In addition to enabling credit card payments, this new version allows for up-to-date [Internet inquiry](#) for Police and A.C.O., including functions for easy dispatching. There is no cost for this system upgrade.

I hope you are interested in upgrading to our credit card enhanced *Animal Licensing* software. To get started, complete a [support ticket](#) to request an application, and you can be accepting credit card payments within a week. As always, feel free to give us a call if you have any questions. (jpires@imasllc.com 203-775-3101)

We are grateful for your business. Have a wonderful Holiday.

I look forward to our next communication,
John
